

Limited Performance Warranty Program

ARMOVEX® Roof Protector Warranty

Long-Term Roof Preservation & Protection System

Thank you for choosing ARMOVEX® Roof Protector. Our advanced Polyacrythane™ coating technology is designed to help preserve, stabilize, and protect asphalt roofing systems from environmental deterioration, granule loss, and long-term weather exposure.

This warranty outlines the coverage provided for qualifying Roof Protector systems installed according to ARMOVEX application guidelines.

STANDARD WARRANTY PROGRAM

15-Year Limited Performance Warranty

The ARMOVEX® Roof Protector Standard Warranty provides long-term protection for qualifying residential and commercial asphalt shingle roofing systems.

Coverage Includes

- Adhesion Performance – Protection against peeling, blistering, or loss of adhesion resulting from material defect or coating failure.
- Film Integrity – Coverage against abnormal cracking, splitting, or excessive deterioration beyond normal weathering conditions.
- Granule Stabilization – Protection against premature asphalt shingle granule loss under normal environmental exposure.
- Water-Resistant Protection – Coverage for failure of the applied coating film that directly impacts the coating's intended water-resistant performance.

- UV & Weather Protection – Protection against premature UV degradation and environmental breakdown of the applied coating system.
- Moss Protection Warranty (3 Years) – ARMOVEX Roof Protector contains antimicrobial and protective properties designed to inhibit moss growth that may compromise roofing performance.

WARRANTY TERM

Standard Coverage Period

Fifteen (15) years from the documented installation date.

Coverage Structure

- Full coverage term
- No prorated material reduction
- Non-transferable unless otherwise approved in writing

WARRANTY REMEDY

If a qualifying failure occurs during the warranty term, ARMOVEX®, at its sole discretion, may:

- Repair affected areas
- Recoat affected sections
- Provide replacement coating material

This warranty does not include full roof replacement or reimbursement for unrelated roofing system failures unless specifically stated in a separate written agreement.

QUALIFICATION REQUIREMENTS

To qualify for warranty coverage:

- Roof must be structurally sound at time of application
- Roof must be properly cleaned and prepared
- Application must follow ARMOVEX specifications
- Product must be applied within approved environmental conditions
- Installation documentation and photos must be maintained

EXCLUSIONS

Structural Defects

- Sagging roof decking

- Rot
- Framing movement
- Structural failure

Pre-Existing Roof Failure

- Active leaks prior to coating
- Severely deteriorated roofing systems
- Roofs beyond reasonable restoration condition

Severe Weather or Acts of God

- Hail
- Tornadoes
- Hurricanes
- Windstorms
- Flooding
- Falling objects
- Fire or natural disasters

Improper Roof Conditions

- Ponding water
- Improper attic ventilation
- Trapped moisture conditions

Physical or Chemical Damage

- Foot traffic abuse
- Pressure washing
- Harsh chemical exposure
- Mechanical damage
- Unauthorized roof modifications or repairs

Unsuitable Roof Conditions

- Excessively brittle shingles
- Major shingle curling
- Significant missing shingles
- Roofs deemed unsuitable for restoration
